The most important thing is the truth of the matter.
If you have already planned your future,

then you will not be able to change your future.
You will have to live with the consequences of your actions.

But sometimes, everything in the present life
seems so perfect that you don't want to change
it for the sake of your life.

Change is not that at the time, you don't change.

It's that you don't change at all.

THE CURSED FAMILY

His face was the only
thing in a swirling daze
around

And I also remember
Zou Yang and the
beautiful palace.

I really wanted to ask
him if he ever had his
moments for one of these

The crowded thoughts seem
to be right behind me.

And a person who has had drunk up with great joy
something he can easily forget

I remember those things from the emotional point of
view of a girl to believe
I had some kind of connection with him. I

When that girl died
her hatred went deep,
and never disappeared.

It became a spirit
and cursed the
swordsman for the
rest of his life.

It was said that his future generations would all have a strange dream
when they turned twenty-five,
where they would feel as if a knife had sliced through their neck.

What?
The Shastagyan group?

That man and the famous
actress Hayama Sora?

Sometimes... I can't help
Dong Hong and
Hayama Sora together

The Chwongni group
was founded in 1883 AD.

During the next years
the government was in turmoil.

They were known as the strongest
assassin group in all of Japan's history.

They used the "Gade Affair" and prevented
an accident from happening for a whole year.

Their flag is painted red
with the word "honesty".

They all wear a light color,
like the color of an onion...
the Shintengou group

However, during the era, they
were all known to be brutal and
used killing as their method of
punish. They had no mercy
on others.

They were known as the
Masters of Pain.

This bloody era

Is where I have
target for my
next mission?
